**FIN Montauk**  
Stop by this boutique for a gold- or silver-dipped fossilized shark tooth. Founded in 2013 by shark wrangler Bella Orna, the shop sells necklaces she creates, inspired by her passion for the environment. Each piece comes from far below the ocean's surface, no sharks are harmed in the process, and a percentage of sales goes to shark conservation orgs. [finmontauk.com](http://finmontauk.com)
